

OLLEAN: The Engineering Partner for Businesses

With over 20 years of expertise in its field, the industrial engineering company OLLEAN has now emerged as a reference for many businesses, regardless of their industry. An overview.

A ISO 9001 certified company

Specialising in design, studies, and 3D engineering since 2002, OLLEAN, the industrial engineering company supports numerous end clients, including major corporations like ArcelorMittal, EDF, and Air Liquide, as well as small and medium-sized enterprises (SMEs) and very small enterprises (VSEs).

Thanks to its cutting-edge expertise and diverse range of services, the company can meet all of its clients' requirements, providing customised solutions for every need. Certified ISO 9001, OLLEAN meticulously adheres to the standards of this certification to ensure project management goes perfectly.

"It is important to specify that OLLEAN is not just a design office, but a true industrial engineering company that, thanks to its numerous internal services, adds real value for its clients. Companies turn to us specifically to benefit from this comprehensive expertise," says Christophe Introini. "Today, we have 30 engineers and technicians and work on projects ranging from 100 hours to 8,000 hours" adds Bernard Moreau.

A constant commitment to innovation

OLLEAN currently supports many businesses in Luxembourg, France, and internationally. "We are indeed able to follow our clients around the world. We have notably completed projects in Réunion, Mexico, and China. We have no boundaries!"

To continue its successful operations, the company is developing new skills in future-oriented sectors such as energy, hydrogen, and decarbonisation. This ongoing innovation ensures OLLEAN can continue supporting its long-standing clients with their evolving business needs.
